Airbus A320 CBT #25 Electrical System Description - YouTube
Airbus A320 Series Electrical System. Electrical System Presentation. There are two identical engine driven generators called Integrated Drive Generators (IDG). They are used as the main power source to supply the A/C electrical network. The IDG basically contains, in a common housing, a generator and a Constant Speed Drive (CSD).

This paper deals with the digital electrical flight control system of the Airbus A320/A330/A340. The A320 was the first civil aircraft equipped with such a system. It was certified and entered into servive in the first quarter of 1988. The A330 and A340 have identical systems, closely related to the A320 system.

electrical power system. The oil-cooled HMDG produces 5KVA (Power Factor 1.0 - 0.75 lagging) of electrical power from the Blue system RAT pump. The Airbus A320 family of aircraft engines are also equipped with Eaton's Tedeco ® chip collectors, located in the secondary power system oil flow. The collectors capture ferrous wear particles

Safran Honeywell EGT5 installed on an Airbus A320 An Electric Green Taxiing System (EGTS) is an electric taxiing system which allows aircraft to taxi and pushback without requiring the use of aircraft engines, and is designed to reduce fuel volumes used by aircraft and reduce greenhouse gas emissions during ground operations.

EGTS - Wikipedia
The electrical system consists of a three phase 115/200V 400Hz AC system and a 28V DC system. Primary AC supply is from two 90 KVA engine driven integrated drive generators (IDGs), associated generator control unit (GCU) which provides frequency, voltage and generator line contactor (GLC) A third 90 KVA generator is driven by the APU.

Airbus introduced its innovative Brake to Vacate technology on the A380, allowing flight crews to more effectively manage approach and landing by pre-selecting the optimum runway exit. This can reduce runway occupancy time by up to 30% - significantly increasing the number of aircraft that can be handled by the world's airports.
