To ensure correct posture, make sure your toes do not lift off the platform and keep your knees bent, making sure your knees do not come out past your toes. Keep your hips square for pelvic stability. INSTRUCTIONS Place one foot in the middle of the platform with your knee slightly bent, then raise your other leg as shown.

Guide to Whole Body Vibration Workout
The best indication of soft foot is an elevated 1x RPM vibration value. This is typically in the neighborhood of 0.3 inches/second or higher. Very often, there is a significant 2x alternate current line frequency peak. The presence of this peak helps differentiate soft foot from imbalance and misalignment.

Detect Soft Foot with Vibration Analysis
1) Make sure foot bath is unplugged and is in the OFF position. 2) When transporting foot bath, position hands around rubberized handles for most secure grip. 3) Place foot spa on floor, fill foot bath with warm or cold water, and plug into wall outlet.

Hi, my name is Peter Mueller, based in Hamilton, Ontario in Canada. I have dedicated much of the past decade to Whole Body Vibration technology, it is a deep passion of mine. I am proud to own the largest collection of vibration machines in Canada, and quite possibly the world, my showroom is somewhat of a Whole Body Vibration museum.

Vibration Guide | WBV Reviews
Calculate total foot area in m2. Example Machine has four feet. 200mm x 200mm Total foot area = (0.2 x 0.2) x 4 = 0.16 m2 STEP THREE Divide load (N) by area (m 2) to arrive at pad loading in N/m . Using examples from STEP ONE and STEP TWO above: Loading = 24525 0.16 = 2153281.25 N/m 1,000,000 = 0.15 MN/m2 Example: TICO® pad loading calculations

Amazon.com: foot vibrator
Human comfort is often the key design objective for footfall-induced vibration, but in research, medical, microelectronics and other "vibration-sensitive" occupan- cies, vibration may need to be restricted to levels well below the threshold of human perception. Response Factors for Humans.

Footfall Vibration and Finite Element Analysis
This manual massager offers good relief and is versatile enough to use it on your whole body. However, it doesn't have all the bells and whistles of an electric foot massager, like heat or vibration. My conclusion is that the TheraFlow massager is an inexpensive massager that's perfect for runners, but not for people with ticklish feet.
