The loss of the multiaxial system in the DSM-5 provides both opportunities and challenges to counselors. The exact outcome of how the new process will be implemented is not yet known, and only time will show the extent of its impact. With the loss of the multiaxial system, some of the structure associated with its use is also lost.

The Removal of the Multiaxial System in the DSM-5 ...

Consciousness, at its simplest, is sentience or awareness of internal and external existence. Despite millennia of analyses, definitions, explanations and debates by philosophers and scientists, consciousness remains puzzling and controversial, being "at once the most familiar and most mysterious aspect of our lives". Perhaps the only widely agreed notion about the topic is the intuition that ...
