in a year, and it would prepare you well. You might even take notes on the histologic appearance of different tumors and diseases; you would have those to refer to during residency. You can look at websites too (like Webpath and Ed's Pathology Notes) – and you should – but Robbins will give you ...

What are the best pathology books? | Pathology Student

Microscopic description. This is a description of what the pathologists see when they look in the microscope. The appearance of the cancer cells, how they are arranged together, and the extent to which the cancer invades nearby tissues in the specimen are usually included in the microscopic description.

What information is included in a pathology report?

small placenta (placenta diminutivata):
An unusually small (less than the 10th weight for dates percentile?) or diminutive placenta [L09-2617,
