The Evolving Self - Integral Life

The Evolving Self focuses upon the most basic and universal of psychological problems—the individual's effort to make sense of experience, to make meaning of life. According to Robert Kegan, meaning-making is a lifelong activity that begins in earliest infancy and continues to evolve through a series of stages encompassing childhood, adolescence, and adulthood.

The Evolving Self - Robert KEGAN - Google Books

Robert Kegan has created a new perspective of personality development, focusing on the dynamics of the evolving self. The perspective integrates two universal human processes--meaning-making and social development--into a scheme that can be used to derive testable generalizations and simultaneously inform the practice of therapy.

process in human ...

"In his book *The Evolving Self* (1982), Kegan explores human life problems from the perspective of a single process which he calls meaning-making,* the activity of making sense of experience through discovering and resolving problems. "Thus it is not that a person makes meaning, as much as that activity of being a person is the activity of meaning-making," Kegan says.
