Tanks were an important weapons system in World War II. Even though tanks in the inter-war years were the subject of widespread research, production was limited to relatively small numbers in a few countries. However, during World War II, most armies employed tanks, and production levels reached thousands each month. Tank usage, doctrine and production varied widely among the combatant nations.

Tanks in World War II - Wikipedia

Wernher Magnus Maximilian Freiherr von Braun (23 March 1912 – 16 June 1977) was a German-born American aerospace engineer and space architect. He was the leading figure in the development of rocket technology in Nazi Germany and a pioneer of rocket and space technology in the United States.. While in his twenties and early thirties, von Braun worked in Nazi Germany's rocket development program.
